For those who live within LS16 postcodes onwards to the airport side; it is recommended to add three minutes to the announced Maghrib time and reduce three minutes from the Sunrise time as well.

The summer time for Isha and Fajr prayers has been determined by taking into account the time lapse between the two respective prayers as compared to the length of the whole night on those periods when the days and nights were nearly proportional.

Prayer times for the City of Leeds were calculated considering the location of the mosque and higher elevations of surrounding areas. For those who live within LS16 postcodes onwards to the airport side; it is recommended to add three minutes to the announced Maghrib time and reduce three minutes from the Sunrise time as well.

Prayer times for the City of Leeds were calculated considering the location of the mosque and higher elevations of surrounding areas. For those who live within LS16 postcodes onwards to the airport side; it is recommended to add three minutes to the announced Maghrib time and reduce three minutes from the Sunrise time as well.
